## **New Product Release**

### **760 MHz Base Station and Customer Premises Antennas**

**Yagis** 7, 9, 11, 12, 13, 14 dBi Gains Available  
**Omnis** 6, 9, 11 dBi Gains for both Vertical and Horizontal Polarizations  
**Sectors** 90, 120, 180 Degree for both Vertical and Horizontal Polarizations

DMS WIRELESS is pleased to announce now available products for 760 - 780 MHz. As number one supplier to the 700 MHz antenna frequency range, now DMS WIRELESS has completed Engineering and Production for complete line of 760 MHz products. Base station and customer site antennas include omni, panel-sector, and yagi antennas with selection of various gains and polarizations. All 760 MHz products are produced with quality materials and controlled production for true to specification performance to minimize outside interference. Quality antennas with superior mounting hardware meet windload velocity specification up to 130 MPH. VSWR, Front to Back Ratio and Beamwidth specifications equal or exceed industry standards.

For more information on the antennas and their specifications, please download specifications from the website: [www.dmswireless.com](http://www.dmswireless.com)

Or contact [sales@dmswireless.com](mailto:sales@dmswireless.com)

Telephone: (770) 529-6800

DMS WIRELESS also supplies Sectors, Grids, Omnis, CPE Flat Panels, Yagis, Heavy Duty Yagis, Magnetic Mounts, Rubber Duck Dipoles, and Universal Mounts from 216 MHz to 5900 MHz for both distributor networks and OEM private label. Contact DMS for your antenna needs.
